

DECLARATION PFAS

Quality and Regulations:

The quality policy is an important part of our corporate policy. Engels Logistiek BV attaches great importance to the high quality of its services, but also to the continuous improvement of the quality of its services and its internal processes. These are guaranteed by skilled personnel in combination with innovative machines and automation solutions.

In addition, the choice of material is also important. Within this framework, there are a number of directives and regulations within the EU.

Proposed ban on PFAS

The European Chemicals Agency (ECHA) published details of a proposed ban on the production, use, sale and import of some 10,000 per- and polyfluoroalkyl substances (PFAS).

Engels Logistiek BV only processes semi-finished products of which our suppliers declare they do not intentionally use or add PFAS during production. The absence of PFAS has not been checked by tests so this does not exclude the presence of negligibly slight traces due to, amongst others, impurities in the components supplied by external parties and used in the production of such components.

Therefore we,

Company: Engels Logistiek BV
Address: Park Forum 1139
Postal code / City: NL-5657 HK Eindhoven

hereby declare, that based on our current knowledge, we can inform you that our products do not contain PFAS.

This declaration applies to the materials as it leaves our facilities. It does not cover any substance(s) or preparation(s) subsequently added and/or in expert material processing or article fabrication further down the supply chain.
